

ROHIT KUMAR SRIVASTAVA

Singapore | +65-80854791 | rohit.rocer@gmail.com | LinkedIn: linkedin.com/in/rohit-kumar-srivastava-59921352

PROFESSIONAL SUMMARY

- Engineering Lead and Senior Full Stack Developer with 10+ years of experience delivering enterprise-grade software solutions across Banking (BFSI), Telecom, KPO, Defense Research, and Trading domains.
- Specialized in designing scalable microservices, RESTful APIs, cloud-native architectures, and modern web applications using .NET Core, Angular, React, Java Spring Boot, and Node.js.
- Strong expertise in system architecture design (HLD/LLD), performance optimization, CI/CD implementation, DevOps automation, and secure coding practices aligned with OWASP, PCI DSS, and VAPT standards.
- Hands-on experience with AWS cloud services, SQL/NoSQL databases, message queues, enterprise workflow systems, and AI/LLM integrations using LangChain, OpenAI APIs, Ollama, and open-source LLMs.
- Experienced technical leader with strong capabilities in stakeholder management, solution architecture, team mentoring, code review, Agile delivery, and enterprise application modernization.

CORE TECHNICAL SKILLS

Programming Languages: C#, Java, JavaScript, TypeScript, PHP, Node.js

Backend Technologies: .NET Core, ASP.NET Core MVC, Web API, Spring Boot, Microservices

Frontend Technologies: Angular 8/10/15+, React 18, HTML5, CSS3, Bootstrap, jQuery

Cloud & DevOps: AWS (Lambda, S3, API Gateway, IAM, RDS, Amplify, Elastic Beanstalk), Jenkins, GitLab CI/CD, Azure DevOps

Databases: SQL Server, MongoDB, MySQL, MariaDB

Messaging & Integration: Kafka, RabbitMQ, IBM MQ, REST APIs, SOAP APIs, CFT, Control-M

AI & Generative AI: LangChain, OpenAI API, Ollama, LLaMA, Mistral, AI Workflow Integration

Security & Compliance: OWASP, PCI DSS, VAPT, Secure Coding Practices

Tools & Platforms: Git, SVN, Jira, Bitbucket, IIS, Apache, Linux, Windows

Methodologies: Agile Scrum, SDLC, System Design, Performance Optimization, Team Leadership

PROFESSIONAL EXPERIENCE

Engineering Lead (Full Stack) | Atos / VUI Systems Pvt Ltd – Client: DSO National Laboratories, Singapore | Apr 2025 – Present

- Leading enterprise application development and architecture discussions for Material Management System (MMS).
- Managing cross-functional teams, stakeholder communication, requirement analysis, and delivery planning.
- Developing scalable REST APIs using ASP.NET Core and enterprise frontend modules using Angular.
- Driving CI/CD deployments using Jenkins, GitLab, and Azure DevOps pipelines.
- Performing code reviews, database optimization, debugging, and performance tuning across SQL Server and MongoDB environments.

Technical Lead (Full Stack) | PersolKelly Singapore – Client: Singtel Singapore | Apr 2024 – Apr 2025

- Led development activities for My Connect Portal (Core Telecom Project) using React 18 and .NET Core.
- Designed scalable APIs and optimized backend integrations for telecom enterprise systems.
- Implemented MSBI/SSIS solutions and managed enterprise deployment pipelines.
- Handled architecture planning, sprint execution, client communication, and production support.

Lead Full Stack Developer | PlateSmart Technologies / Shiv Software Experts | Oct 2023 – Mar 2024

- Delivered finance and trading platform enhancements using Angular 15, React 18, ASP.NET Core, and SQL Server.
- Led a team of developers and coordinated end-to-end product delivery.
- Implemented CI/CD automation, application optimization, and architecture improvements.

Senior Software Engineer (Full Stack) | Crédit Agricole Corporate & Investment Bank – Singapore | Aug 2022 – Aug 2023

- Developed enterprise-grade financial applications using ASP.NET Core, Angular, React, and SQL Server.
- Contributed to architecture discussions, deployment automation, and application modernization initiatives.

Senior Software Developer | Evalueserve | Apr 2021 – Jul 2022

- Built scalable backend APIs and Angular applications for enterprise automation solutions.
- Integrated OCR, MQ services, and billing microservices into high-volume business workflows.

Software Engineer | Qualfon Advanced Technology | Oct 2017 – Apr 2021

- Designed and developed enterprise web applications using ASP.NET Core, Angular, and SQL Server.
- Participated in solution design, deployment, automation, and client delivery initiatives.

Software Engineer | Taction Software LLC | Feb 2016 – Oct 2017

- Worked on CRM customization and plugin development using SuiteCRM, PHP, MySQL, and MariaDB.
- Handled client requirement gathering, module customization, and deployment support.

KEY PROJECTS

Material Management System (MMS) – Angular, .NET Core, SQL Server

- Enterprise material management platform involving REST API development, Angular frontend implementation, deployment support, and production optimization.

My Connect Portal (MCP) – React 18, .NET Core, MongoDB

- Core telecom enterprise platform for Singtel with scalable API integrations and modern React frontend architecture.

Spread Smart V2 – Angular, .NET Core, OCR, RabbitMQ, IBM MQ

- Enterprise workflow and billing management solution integrating OCR engines, microservices, and messaging queues.

CCPA & Speak Up Platforms – Angular, ASP.NET Core, SQL Server

- Developed enterprise portals focused on workflow automation, reporting, and scalable web architecture.

CERTIFICATIONS

- Red Hat Certified Engineer (RHCE)
- Red Hat Certified System Administrator (RHCSA)
- Professional Scrum Master
- MongoDB Basic Certification (M001)
- Six Sigma Green Belt (CSSGB)

EDUCATION

- Master of Computer Applications (MCA) – Ajay Kumar Garg Engineering College, Ghaziabad
- Bachelor of Science in Information Technology (B.Sc. IT) – Kuvempu University
- Higher Diploma in Software Engineering – NIIT
